

MOTOJET X

60,000 psi [4150 bar] Intensifier Pump

MotoJet™ X, designed to be used exclusively with FlowCare, offers ultimate uptime and reliability.

As part of FlowCare, Flow will own and maintain the topworks assembly during the duration of the plan, while the remaining pump assembly unit is wholly owned by you, the customer. Flow ensures the unit is always properly maintained, allowing you to focus on what matters – uninterrupted production.

At the end of your FlowCare term, you can choose to remain on FlowCare and continue using the MotoJet X intensifier, opt to purchase an ESL intensifier, or even upgrade to other pump technologies. The MotoJet X is modular in design, making this an easy switch.

Specifications

Horsepower
30/50 hp

Orifice Size
0.010"/0.014" [0.245 mm/0.356 mm]

Flow Rate
0.62/0.91 gal/min

Max Generated Pressure
65,000 psi [4800 bar]

Max Operating Pressure
60,000 psi [4150 bar]

Features & Benefits

Full-Service Maintenance

Flow provides full-service maintenance for the MotoJet X, which greatly reduces the requirements of your staff.

Longest-Life Solution

Go longer between maintenance intervals and see maximized uptime and production.

95% Uptime Guarantee

If your machine is down, business is down. With the new MotoJet X intensifier pump, Flow is guaranteeing 95% uptime.

User-Friendly Pump Enclosure

Convenient, user-friendly design: air assisted lifting top, removable side panels for full maintenance accessibility, handle-integrated status light, interior work light, and sound deadening materials.

Validated Design

The MotoJet X has been rigorously tested and has proven pump life — all built by the same engineers who developed the HyperJet®, our highest performing pump.

Easily Upgrade to Other Pump Technology

Your MotoJet X can be easily upgraded to other pump technologies, included any future pumps designed to be compatible with the platform.

Equipped with Waterjet Connect™

Every MotoJet X pump comes equipped with Waterjet Connect — your unique waterjet account, accessible from desktop and mobile.

Complete flexibility with a versatile pump, designed around the ever-changing needs of your business.
